- Assist with company operations and management tasks as needed

It is anticipated that the principal duties of the incumbent will include those listed below, but the successful candidate will have the willingness and capacity to take on different tasks and to respond to emerging needs. This position reports to the Director of Finance and Operations.

Principle Duties

- Support EI’s day-to-day financial operations, ensuring timely and accurate outputs. Make adjustments as necessary to accommodate changing priorities, meet deadlines, and effectively organize tasks.
- Compile and maintain data needed to effectively monitor and report status of various financial needs, including project budget status (budget vs. actual), cashflow management, profits and losses of the company and its practice areas, and staffing analyses.
- Prepare quarterly and annual financial reports for USAID and other clients.
- Build financial models and budget management tools to carry out financial analyses and forecasts that support management decisions.
- Be the primary point of contact for EI’s accounting firm, ensuring timely and accurate financial management and reporting.
- Analyze existing financial systems and make recommendations for improvements.
- Develop guidance documents for financial processes and train staff on their use.
- Assist with budget development for annual project work plans, proposals and company strategic plans.

- Support preparations for government audits.
- Maintain risk management controls and perform internal control audits to ensure compliance with applicable US government regulations such as the Defense Contractor Audit Agency guidance, Federal Acquisition Regulation, United States Agency for International Development Acquisition Regulation, General Services Administration schedule requirements, and other applicable tax codes and regulations.
- Act as a liaison between EIs Company Health team, program staff, and external partners and clients as needed.
- Develop data visualizations and dashboards to communicate complex financial and other data.
- Develop deliverable tracking and program monitoring tools.

QUALIFICATIONS
